

PISCINE WELLNESS · POOL-SHAPER

Project Book

rectangular pool 8.00 × 4.00 m, depth 1.50 m

PROJECT ID

PW-A24Y-7CDSQC

22 October 2026

The project

In-ground pool · Skimmer — classic edge · approx. 34 m³ of water

YOUR POOL

Type	In-ground pool
Structure	Reinforced concrete
Dimensions	rectangular pool 8.00 × 4.00 m, depth 1.50 m

WATERLINE

Hydraulic system	Skimmer — classic edge
Skimmer	High water level · Satin steel

Materials and finishes

MATERIALS

Lining	Mosaic 5 The water colour will reflect the selected mosaic shade
Coping	Pietra di Prun
Paving	Porcelain stoneware · Greige
Paving size	60 × 60 cm Reference dimensions for the visualisation; supply to be confirmed.

Access, comfort and options

ACCESS AND COMFORT

Included	Sun shelf loungers · 2
Included	Integrated internal stairs — Straight internal stairs
Included	Sun shelf · total length 3.200 m

LIGHTING

Stair options	LED spotlights in the internal stair risers

OPTIONS

Included	Heat pump

PRESENTATION

Time of day	Day

Plan and technical data

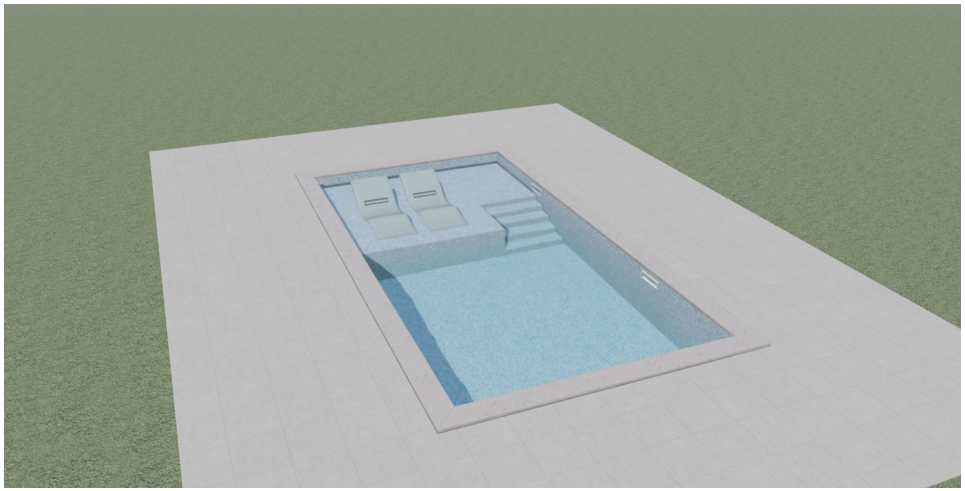

System	Skimmer
Structure	Reinforced concrete
Water volume	34.4 m³ Calculated
Water surface area	32.0 m² Calculated
Base pool surface area	68.0 m² Calculated on the base shell; comfort features and details excluded.
Interior finish	ca. 68.0 m² · estimate Interior surface as an initial estimate; wastage and installation details excluded.
LED	0 · automatic layout From layout
Skimmer	2 · positioned From layout
Returns / drains	Positions to be designed The position and number of returns require a hydraulic design. Main drains and suction requirements require a hydraulic design.
Cover	Not selected

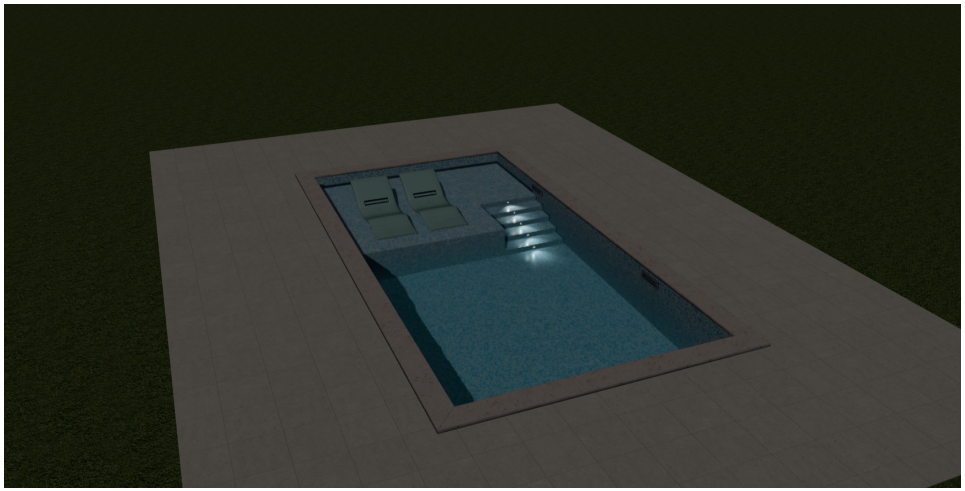

Configuration data, not a construction design. Flow rates, suction, balance tank and site compatibility require technical verification.

To be agreed with your consultant: Heating capacity sizing · Final equipment sizing

Presentation

DAY

NIGHT

The same pool, the same view: daylight and the atmosphere of evening.

Your project, always with you
